FOR IMMEDIATE RELEASE

CapStone Technologies Ranks No. 93 on Inc. 5000 Regionals List
Lincoln-based firm is among the fastest-growing companies in the Midwest.

Lincoln, Neb., March 16, 2021 – *Inc.* magazine today revealed that CapStone Technologies is ranked No. 93 on its 2021 Inc. 5000 Regionals: Midwest list, the most prestigious ranking of the fastest-growing private companies in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. Born of the annual Inc. 5000 franchise, this regional list represents a unique look at the most successful companies within the Midwest economy’s most dynamic segment—its independent small businesses.

“Making the Midwest Regionals list again is a badge of honor for us,” said Kirk Trofholz, chief executive officer for CapStone. “Our team works hard every day to come up with new solutions that will make print-to-mail companies’ businesses better, and it’s wonderful to have that tenacity recognized.”

CapStone offers print-to-mail companies a variety of premium services, software and robotic equipment designed to make their businesses more efficient, improve operations and cut costs.

- AutoViri™ Software gives mailers real-time, virtual visibility of their production to help them reduce errors and the associated USPS Mailer Scorecard assessments, enhance communication, and monitor job status from anywhere 24/7.
- AutoViri robotic solutions automate a host of repetitive, time-consuming mail production tasks. CapStone offers robots for traying, palletizing, and sleeving, as well as tray management and shelving, to help production move faster with fewer errors and bottlenecks.
- CapStone’s Business Engineering team works with mailers to find solutions to any business challenge they might have. The team is vendor- and technology-neutral and helps print-to-mail companies make smart, strategic changes to their current or future operations that will bring more efficiency and profitability.

“This list proves the power of companies in Midwest states no matter the industry,” says *Inc.* editor-in-chief Scott Omelianuk. “The impressive revenues and growth rates prove the insight and diligence of CEOs and that these businesses are here to stay.”

The companies on the list show stunning rates of growth across all industries in the 12 Midwest states. Complete results of the Inc. 5000 Regionals: Midwest, including company profiles and an interactive database that can be sorted by industry, metro area, and other criteria, can be found at <https://www.inc.com/inc5000/regionals/midwest>.
